

# RS calibration roller DN 300 / DN 400 transportable + electric

With the RS calibration roller we offer you a compact system for the impregnation of pipe liners up to DN 300 and DN 400.

## Properties

- Electrically driven
- Specially coated calibration rollers
- Synchronized drive
- Forward and reverse drive
- Infinitely variable speed
- Manually height-adjustable upper calibration roller
- Simple millimetre-accurate gap adjustment via a control wheel
- Easy reading of the gap setting via a digital display

- On/off switches, speed control and direction of rotation are via switches on the unit
- EMERGENCY STOP switch
- Transparent intervention protection with stop function

## Technical Data

- Power supply: 230V
- Dimensions DN300: 880 x 525 x 260 mm (LxHxW)
- Dimensions DN400: 1070 x 525 x 260 mm (LxHxW)
- Weight DN 300: 50 kg
- Weight DN 400: 62 kg
